## Case Study: Ellis Family Dentistry Hopewell Virginia

Ellis Family Dentistry, experts in cosmetic, preventative, and restorative dentistry is a true family dental practice. For over 30 years, Hopewell residents have come to know and trust Dr. David Ellis and his son, Dr. Jonathan Ellis. The caring approach of their dedicated staff in concert with the modern technology of their newly finished office provides patients with a unique – rather enjoyable – dentistry experience. Part of this experience is the initial phone call. Patients call for appointments, treatment inquiries, and for a variety of other reasons. And, just like many dental practices, these patients are commonly placed on-hold.

Instead of playing “simple music,” the Ellis family decided this was an opportunity to communicate directly to patients. As well, they can educate patients about the “Ellis difference,” including their newly built office, caring staff, continuing educational experience, and their available dental technologies – including CEREC, Invisalign, Digital X-Rays, and more. With the help of the marketing experts at Telephone On Hold, that’s precisely what happened.

and colleagues.”

“We were truly impressed with the quality and professionalism of Telephone On Hold,” says Annie Ellis of Ellis Family Dentistry. “From the first phone call through the final production, we received prompt attention and excellent customer service. We are extremely happy with our final product and also that it only took about a week from the first call to the completed message on hold. We would definitely recommend Telephone On Hold to friends

## TESTIMONIALS

### DENTAL MUSIC ON HOLD SOLUTIONS BY TELEPHONE ON HOLD

“We are absolutely delighted. We’re a dental office in New Haven Connecticut and have found that our patients are now informed! They know more about us, they are generating questions for us, they are appreciative of the information that we have here. They come in talking about it, we really like the voice and we like to be in control of the content and the material. I applaud Telephone On Hold for a fine job.” – Dr. Jack Levine, Orange Street Smiles

“Just a short note to let you know how pleased I have been with my new on hold system. After we saw your company at a dental convention in Boston, I was skeptical that the system would work well for my practice. I have to admit it, you were right! It was a "piece of cake" working with your company! I'm not that handy when it comes to this modern technology stuff but it was easy and I have started at least two new bleaching cases since I plugged it in so I know it is working. I don't know how you can put together such a professional system for such a reasonable price. Thank you for all of your help!” - Dr. A. W. Mercier Jr., Dartmouth Dental

“We Just wanted to thank you for the perfect job and the best customer service we've ever had. We strongly believe if one has a good experience, one must let everyone know about it. In our case, we'll recommend Telephone On Hold to all who need this service. Thank you for being so attentive and professional.” - Dr. Bortay Dehnadi, Dr. Nirup Reddy, Santa Paula Dental Care

"Wow!! is the first word that comes to my mind when writing about my experience with Telephone On Hold. My account manager was extremely helpful in explaining, implementing, and executing my need for an on-hold message system for my dental office. I have been contacted by various companies that provide on-hold message systems and if you stop at telephoneonhold.com, look no further. Not only is "price is right", but the customer service is superb as well. I received my customized on-hold message in the MP3 format and the message player only DAYS after I signed up with them. Talk about efficiency! Thanks, Telephone On Hold for the hard work!" - Dr. Nelson Chen, Advanced Dentistry Northwest

“Telephone On Hold was a great, inexpensive investment for our office! We can now market our new products and specials to our patients while they are on hold. What better way to make use of our patients’ time while they wait? The customer service at Telephone On Hold is outstanding, they really made sure that we were satisfied with the product. I would definitely recommend Telephone On Hold to a friend.” - Olga Lorenzo, Family Dentistry

“Sounds Great! It was really very nice to work with you and your staff. I was little worried because I found your company from the Internet, but you are professional, quick and easy to work with and I am very happy with the finished product. I will certainly recommend you in the future!” - Dr. William Meza, Bay Area Dental Practice
