Case Study: Mayfair Animal Hospital Cary, NC

Mayfair Animal Hospital has been providing the highest quality veterinary care for the residents of the Cary area since 1970. With a combined veterinarian experience of over 70 years, their team of 5 doctors is one of the most respected in Wake County. Through their continuous team development program, they strive to maintain the highest standards of care in veterinary medicine. Their in-house radiology and laboratory capabilities can greatly reduce the time required to diagnose most medical problems. Their team understands that each patient is more than an animal - they are our best friends and deserving of the highest quality of care. Part of providing superior care is handling phone calls regarding appointments, treatment inquiries and a variety of other reasons. And, like many veterinary practices, callers are commonly placed on hold.

Mayfair Animal Hospital utilizes hold time to educate & inform callers about services such as laser therapy, senior pet screening, nutritional counseling and more. In addition, they remind callers to be sure flea & tick treatments and heartworm medications are up to date. They understand that an educated caller results in better care for their pets and increased practice revenue. Together with the music on hold experts at Telephone

On Hold, this has proven true.

“We are pleased with your services and the response from our clients has been wonderful,” says Norm from Mayfair Animal Hospital. “It’s really increased the presence of the hospital and I think our clients appreciate the opportunity to hear about our other services and keep them informed about pet-care. “The customer service we receive is beyond expectation. Our account manager is always available to meet our needs. You can depend on quality recordings in a timely fashion! Thanks, Telephone On Hold...It's a pleasure doing business with you!” – Jeanne LoBasso, Cobble Hill Animal Clinic

“Telephone on Hold, Justin in particular, was a pleasure to work with! Early last year I inquired about doing a message on hold. One direct phone call was all it took. Justin took the call and enthusiastically explained what the service is how it works and the cost of three different programs. There was no pressure to buy (greatly appreciated) and he followed up promptly with a personalized e-mail showing me everything he'd told me on the phone. When I did decide to go ahead, about 9 months later, a quick call to Justin was all it took. He remembered me like it was yesterday and picked up right where he'd left off. Then he forwarded me a simple form to fill out and 3 days later I had my little black Message on Hold box to plug into out phone system. After a few back and forth e-mails to create our customized script, choosing the announcer voice and background music I had the completed audio file in my e-mail box. Uploading the file to the black box was simple and it has been running without any problems ever since! I highly recommend Telephone on Hold. I feel like I have made a friend even though I never saw or met him face to face. Anyone reading this is welcome to call me at 707-769-7387, make sure to ask our receptionist to put you on hold for at least a minute (5 if you have time to hear it all) to hear what Telephone on Hold did for us.” – Grant Garl, Fit 'N' Furry Pet Resort & Training Center
